

# Family Rules

“Family rules” or norms are “the way we do things in our family.” Often, they are unconscious, rarely discussed, seldom decided by discussion. Different families have different rules. When a couple is married, the different family rules conflict. Family rules often become more important than the Bible—even in strong Christian families. These norms are often elevated to God’s truth. They are not just the “way we did things in our family,” but that is the way things “ought to be done.”

Think about your home when you were growing up. What were your “family rules?” They were probably not stated as rules, but everyone in the family knew “that is the way we do things.”
